## Certificate

To whom it may concern

We can testify that Rukshin Farokh Shafer has been regularly translating texts from Hindi to English, and from English to Hindi for Samarpan Meditation. In addition, she has interpreted from Hindi to English and English to Hindi for several live programmes with up to 400 participants at several events over the last years. Maybe the highlight was when she in Singapore in 2015 translated the live session with the founder of our foundation, H.H. Shree Shivkrupanand Swami, with around 1000 participants in the Singapore Convention Center, and everybody was admiring her absolute calmness even in understanding and interpreting hard-to-understand accented English.

Rukshin has a good grasp over both English and Hindi, and therefore provides translations that are precise and yet convey the meaning, tone and intent of the original document.

She has a loud and clear voice and though she is ethnically Indian she has a perfect neutral Oxford accent that is easy to understand for native speakers of both English and Hindi. She is quick to respond to changing situations and is able to engage with a crowd at larger events with zero nervousness.

As her excellent translation performance has been so 100% stable over the years, we are not just sure but can even guarantee that any organization who hires her for translation and live interpretation from Hindi to English or English to Hindi will be happy with her.

Best regards,

Johannes Weiss
